Mr. David Wampler  
Paradigm International, Inc.  
17165 Gillette Avenue  
Irvine, CA 92714

Dear Mr. Wampler:

This is in reply to your request for compound authorization for your product Stardust Super Absorbent.

This product is acceptable for use as an absorbent or anti-slip agent for spot application to floors to correct a hazardous condition in official establishments operating under the Federal meat and poultry products inspection program. Such products may be used in all areas provided that use is limited to the portion of the floor area where the hazard exists and does not result in dusting, tracking, or other objectionable conditions. The product may not be used as a substitute for good sanitations. It must be removed as a part of the routine floor cleaning operation.

The final granting of authorization for the proposed use of such compounds is the responsibility of the inspector in charge of the official plant. Technical assistance will be provided by the Compounds and Packaging Branch upon request.

Acceptance of compounds by this Department is in no way to be construed as an endorsement of the compounds or of any claims made for them.

If any change is made in the labeling information or formulation, the authorization for use in official plants becomes void immediately.

Sincerely,

John M. Damaré, Chief  
Compounds and Packaging Branch  
Product Assessment Division
